Real Estate

Real estate law encompasses many issues, including purchase and sale, construction, litigation, and contracts. At **John E. Carter, P.C.**, we are uniquely qualified to deal with many complex real estate issues because of our past experiences and expertise in the area.

Mr. Carter owns a title company called [All American Title](#) that is located in the firm's office building. Please visit the company's website for excellent information and resources regarding the purchase of a home, settlement, and forms required to take title to a property. The site also provides resources for those selling their own homes (for sale by owner situations).

In addition to owning All American Title, Mr. Carter owns a construction company and holds a class A construction license from the state of Virginia. A class A license is the highest license available to construction companies, and allows Mr. Carter and his company to construct buildings of any size at any location. He does real estate development projects, and even has a title insurance underwriter's license.

At **John E. Carter, P.C.**, our real estate practice includes all areas related to the field. We do a significant amount of residential real estate closings, real estate litigation, contracts for the purchase and sale of real estate, development plans, title opinions, and deeds. We are experienced, knowledgeable attorneys that provide the best in real estate representation. Please feel free to call, e-mail, or fill out the contact form on this website if you have any questions regarding a real estate closing, title, deed, or other real estate issue.
